

DEVCON

SHAPING THE FUTURE

DEVCON

**DELIVERING
RESULTS
SINCE 1956**

Whether your project is a new estate, an infrastructure upgrade, or a complex civil package, our focus stays the same. Get it done properly the first time.

STRONG COMMUNICATION

Straightforward communication that keeps everyone aligned. No confusion, no chasing answers.

PLANNING TO DELIVERY

One team responsible for the outcome, managing coordination, construction delivery, accountability, and project execution.

HANDS-ON EXPERIENCE

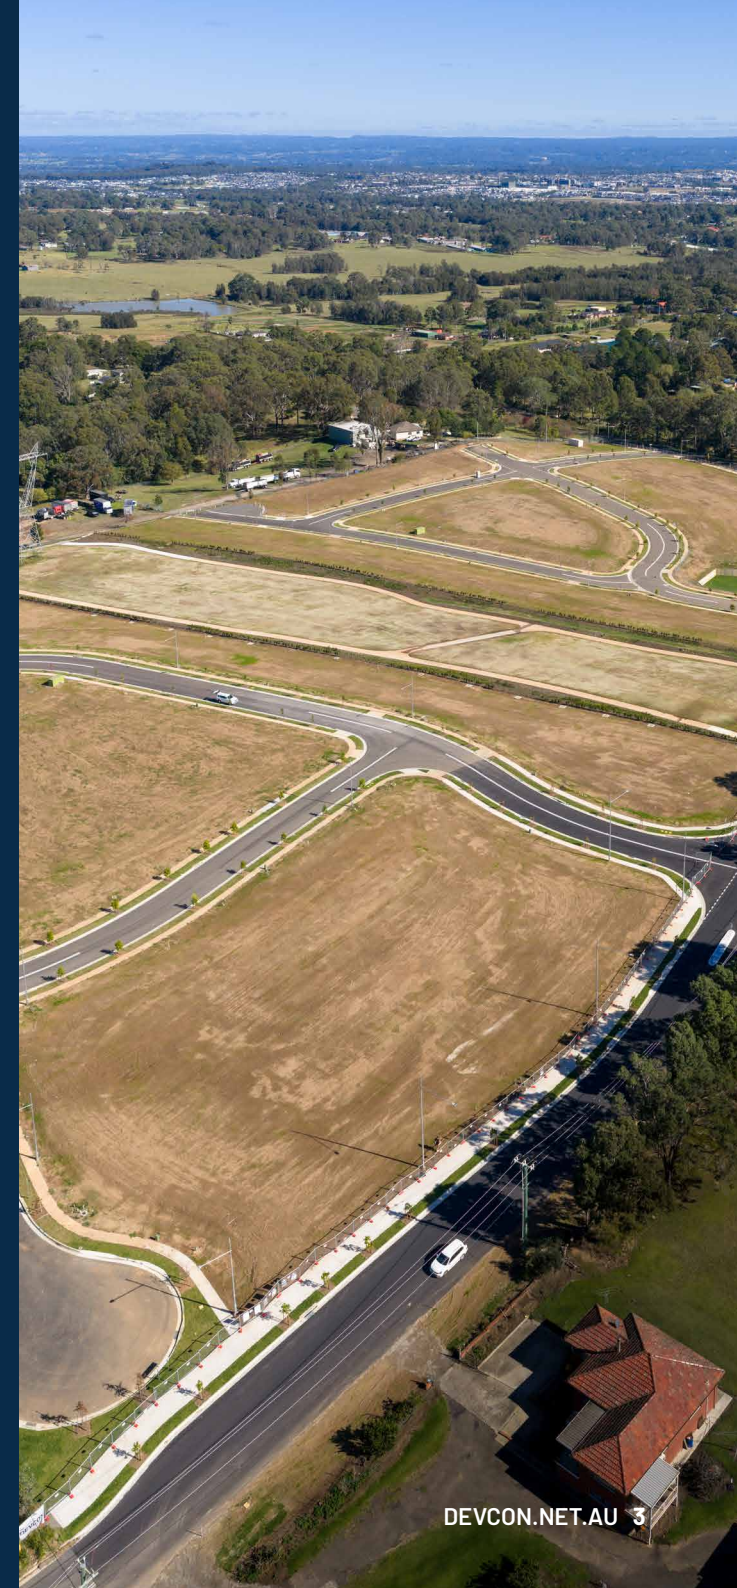

Decisions are made with real site experience behind them. Problems are solved quickly and the focus stays on progress.

RELIABLE DELIVERY

Projects completed with a strong focus on timelines, sequencing, and coordination across all moving parts.

VALUE FOR INVESTMENT

Quality construction that holds up under real-world conditions, offering true longevity.

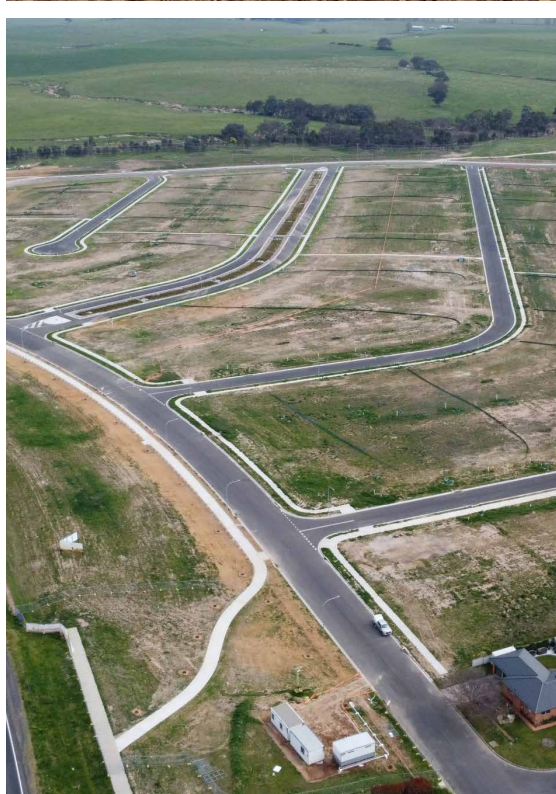

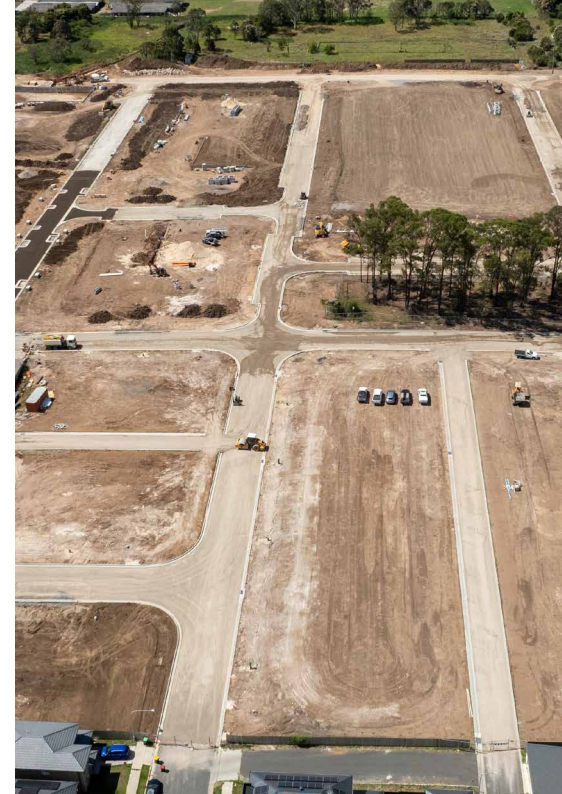

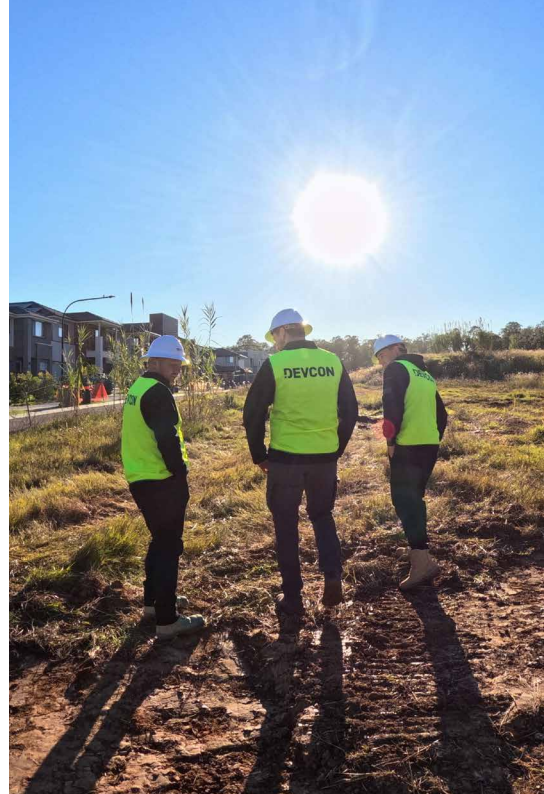

LAND SUBDIVISION

Devcon is proudly one of the leading subdivision contracting companies across New South Wales with the expertise to deliver both residential and commercial subdivision works of various sizes.

Our highly experienced team guide clients and provide the services required to take each project from start to finish in a timely and cost-effective manner.

We have extensive experience when it comes to managing the challenging combination of bulk earthworks and civil works often found when working on industrial estates along with the delicate politics that tend to come with residential subdivisions.

We work ambitiously to deliver high-quality results with minimal disruption to current infrastructure, environmental zones and existing occupants.

Our team is committed to exceeding client expectations. We aim to go above and beyond to ensure projects run smoothly, working to stay ahead of schedule and within budget.

GOVERNMENT

Our government civil contracting expertise spans across all aspects of each project ensuring a smooth journey from design through to delivery.

From planning, design and engineering through to bulk earthworks, retaining, stormwater, utilities, roadworks, landscaping and concreting, we've got you covered.

At Devcon we work with local councils and state governments to carry out upgrade and development works.

Our infrastructure construction services deliver innovative and flexible solutions. Projects include (but are not limited to) roads, stormwater, drainage, pedestrian access, bridges, barriers/retaining and causeways.

We pride ourselves on our ability to not only meet but exceed expectations.

To achieve this, we place a high importance on communication and collaboration at every stage during the planning and construction process, from tender drawings to completion.

Our team place particular importance on health and safety, direct communication, schedule management, environmentally friendly solutions and innovation.

INFRASTRUCTURE

Devcon is known for delivering quality infrastructure projects designed to stand the test of time.

With building expertise in multiple sectors, we form partnerships with a diverse range of clients, from industrial and commercial companies, right through to local councils and private entities.

Devcon provides an expansive range of building solutions for residential, commercial, and government developments.

With its origins in land subdivision and infrastructure work, the Devcon team play a key role in an array of development initiatives. Many of our projects have spanned multiple stages, spread over several years.

We have three generations of expertise to deliver build projects including bridges, retaining walls, acoustic walls, signage, concrete construction, stormwater management and drainage.

BUILT ON EXPERIENCE

Devcon was established in 1956 and is a third generation, family owned and operated civil construction company. With decades of experience in roads, civil, concrete, drainage, kerb and gutter and associated works, we are masters of our craft. Our team network spans between Sydney and the Hunter Region (NSW) to deliver projects that not only meet but exceed client expectations.

We are driven by a sustainable approach to everything we do and continually seek new methods and innovative solutions.

Our clients are our partners and we work in synergy to transform ideas and plans into a reality.

Every team member is an integral part of our business and pride themselves on being strongly aligned with our values of collaboration, authenticity, integrity, innovation and growth.

ACKNOWLEDGEMENT TO COUNTRY

We acknowledge the original custodians of the land on which we meet and work. We pay our respects to elders past and present, and acknowledge the Aboriginal people for their custodianship on this land. We work together for a united city that respects this land and values the contribution to our community and culture of all people of Aboriginal heritage.

We appreciate the importance of creating relationships and respecting the culture and traditions of Australia's Indigenous communities.

Devcon works in partnership with local Aboriginal groups, councils, businesses and Indigenous-owned suppliers to establish strong local ties that are respectful, positive and productive.

We actively seek opportunities to engage Indigenous contractors and procurement partners, supporting local economic participation and creating shared value within the communities where we work.

SUSTAINABILITY

We deliver infrastructure projects that balance environmental responsibility, community outcomes and long-term value.

Environmental Stewardship

Protecting the environment through responsible construction practices that reduce impact and preserve natural ecosystems.

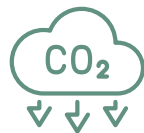

Resource Efficiency

Minimising waste through recycling, responsible material sourcing and efficient use of plant, equipment and resources.

Protecting Land & Water

Implementing erosion, sediment and waterway protection measures that safeguard the environment throughout every project.

Lower Carbon Operations

Improving fuel efficiency, reducing emissions and continually seeking smarter, more sustainable ways to operate.

Investing in People

Developing skilled, capable teams through apprenticeships, training and ongoing professional growth.

Supporting Communities

Creating lasting value by employing locally, strengthening regional economies and supporting indigenous and local suppliers.

Building an Inclusive Industry

Encouraging greater participation in construction by fostering opportunities for women and a more diverse workforce.

Safety Without Compromise

Embedding a proactive safety culture through planning, hazard awareness, risk management and continuous improvement.

Wellbeing That Matters

Supporting the physical and mental wellbeing of our people because healthy teams deliver stronger outcomes.
